Our Handcrafted products are as individual as the people who buy them

ABOUT

J P Handloom is a leading provider of high-quality handcrafted textiles, offering a wide range of hand-spun & Handloom products that are designed to suit every taste and budget. Our commitment to traditional weaving techniques and the use of natural fibers ensures that every product we offer is not only beautiful but also sustainable and environmentally friendly.

Eri silk yarn is a luxurious and unique type of silk that is made from the cocoon of the eri silkworm. Known for its softness, warmth, and durability, eri silk yarn is highly valued for its unique texture and natural beauty.

One of the key benefits of eri silk yarn is its sustainability. Unlike other types of silk production, eri silk is produced without harming the silkworm. In fact, the silkworm is allowed to emerge from its cocoon before the cocoon is harvested, making eri silk a non-violent and ethical choice for those who are concerned about animal welfare.

Eri silk yarn is also highly versatile and can be used for a variety of projects, from weaving and knitting to embroidery and crochet. Whether you're looking to create a cozy sweater, a lightweight scarf, or a stunning piece of textile art, eri silk yarn is a beautiful and sustainable choice.
